

Retail Park Section 278 Highways Works

Chichester Retail Park is an up and coming ongoing development situated on Barnfield Drive and SB Civil Engineering have been awarded the contract to complete the Highways and Section 278 works outside the retail site. The contract awarded to us was through PPE Ltd and we will be engaged with West Sussex County Council.

Chichester, West Sussex

Client. PPE Ltd

Duration. 20 Weeks

Valuation. £500,000 - £850,000

Chichester Retail Park on Barnfield Drive are to complement the city centre and will encourage more people to visit the site.

Project Overview

SB Civils will be working on many aspects on the public highways including the roundabouts, carriageways, footways and cycleways. We will begin our works in March 2016 with conducting trial holes around the roundabouts before the works commence on the Public Highway. Works will include road widening, new entrances, street lighting and new surfacing to the highways and footpaths. All our works will be within traffic management to ensure safety to all pedestrians and working contractors.

The current development is still expanding with new stores such as Aldi and Wickes. SB Civils are looking forward to working alongside the current contractors to improve and add to this already exciting new retail site.

The ongoing works currently occupying the Chichester Retail Park on Barnfield Drive are to complement the city centre and will encourage more people to visit the site, we are excited to put our stamp as SB Civils on this already fantastic project.
